REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art does not show or fairly suggest the claimed invention of a variable lens, and related image capture device or optical device, having the claimed structure and claimed limitations, wherein a rejection under 35 USC 102 or 103 would be improper. Please particularly note the combination of claimed elements and claimed limitations, including as recited in the independent claims 1, 11 and 16: a variable lens comprising a substantial cylindrical fluid chamber including a first, electrically conductive, fluid and a second, non-conductive fluid, the fluids being non-miscible, in contact with each other and having different indices of refraction, and an electrode configuration comprising a first electrode in contact with the first fluid and second electrode means arranged at the chamber wall, characterized in that a volume of one of the fluids is arranged between two volumes of the other fluid, the second electrode means comprises at least two sub-electrodes each covering, in the direction of the cylinder axis, different portions of the cylinder wall where a size of said volume of said one of the fluids is chosen so that at least one of said two-electrodes remains in contact with said volume and the chamber wall is provided with an opening at each of its opposite ends which said openings being interconnected by means of an external fluid guide to channel one of the fluids from one of said opposite ends to the other of said opposite ends as the fluid arranged between the two volumes of the other fluid moves within said in chamber.

Therefore, in light of the Applicants' arguments and/or amendments, the claimed invention is considered to be in condition for allowance as being novel and nonobvious over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
